Dec 06/Jan 07  
issue of  
Canadian Music Trade

... Singer/songwriter **James Blunt** recalls the first acoustic guitar that he bought himself was the **Seagull S6**. As his preference for a Seagull hasn't changed, parent company Godin Guitars built Blunt his own Seagull 6- and 12-string acoustic models. Both guitars have a high-gloss burst finish. Blunt says that they are "beautifully crafted and beautifully sounding guitars ... may I have another one please?"
